Committee noted the fact that certain entities listed in the Presidential Order now stand included in the X schedule to the Act. Committee also noted that certain entities notified in the Presidential Order have now become defunct and no longer exist.

Committee approved the list of entities proposed by the two Governments jointly as territorial serving AP or Telangana as the case may be and the list of State wide institutions serving both the States.

5. Proposal on approval of Final cadre strength of departments and tentative allocation of personnel

Committee noted that the Telangana Government and the A P Government want the tentative allocation of personnel to be done as fast as possible so that those provisionally allotted to a State working in the other in respect of whose allocation there is no objection

could be moved by them to the States to which they are tentatively allotted in order to bring stability to the administrations. From the notifications done so far the committee found that there are a large number of single posts and single vacancies in almost all departments the final allocation of which has to wait the for the tentative allocation of employees. Similar is the case of isolated posts in respect of which clubbing is to be resorted to. In order not to cause anxiety and suspicion in the minds of employees it had become essential to wait for the final notification of the cadre strength till the tentative allocation is decided by the committee. Committee therefore noted that final cadre strength and its division between the two States are best determined after the tentative allocation of personnel is notified by the committee calling for objections, having regard to the guidelines stipulated at paragraph 12 and recommended final cadre strength of the States for the categories of posts in each department may be notified accordingly, but before the final allocation list of personnel is prepared and notified.

Committee also recommended that the tentative list of employees to be allocated may be drawn up with the help of the heads of departments of the two States in respect of each department by the Member secretary and Secretary (S R) A P and the Secretary (S R) Telangana and the Chairman and that the list so prepared will be circulated to the State representatives on the committee and the Chairperson be authorized to approve the same on behalf of the committee and to notify the tentative allocation notifications calling for representations, if any, by the employees likely to be aggrieved. The tentative allocation lists so notified will be placed before the Committee for ratification and formal approval.

The Committee further advised that the as proposed by the Chief Secretaries to Government of Telangana and Andhra Pradesh they may be allowed to relieve those employees working in one State tentatively proposed to be allocated to the other against whose allocation no objections have been received to move to the State to which they have been allocated after the tentative allocation list of personnel is notified calling for objections. The Committee considered that it would be in the public interest to do so and also beneficial to the employees so allocated. It was noted that it in order to avoid complications it would be necessary to withhold movement of persons against whom objections are raised. The Joint Secretary, DoPT advised that a proposal may be submitted to the Central Government for its consideration and approval. It was accordingly decided by the Committee that the Government of India may be moved to

agree to the recommendations of the Committee made in respect of this subject as outlined above.

The chairperson and the Chief Secretaries called on the Secretary Personnel and appraised him of the proposal and requested him to accede to the above recommendation.
