From June 2010 to March 2011

Phases in Japan: From July 13, 2010 to September 18, 2010

This information pertains to one of the Training and Dialogue Programs of the Japan International Cooperation Agency (JICA), which shall be implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between both Governments.

Preface

The Group Training Course in *Analysis, Interpretation and Use of Official Statistics* will be conducted jointly by the Government of Japan [through the Japan International Cooperation Agency (JICA)*] and the United Nations Statistical Institute for Asia and the Pacific (SIAP)** with a view of strengthening the capability of producing statistics for social and economic progress in developing countries.

* The Japanese Government extends official development assistance (ODA) to developing countries to support their self-help efforts that will lead to economic progress and a better life for the citizens of those countries. Since its foundation in 1974, the Japan International Cooperation Agency (JICA) has implemented Japan's technical cooperation under the ODA program. In October 2003, JICA was transformed into an "Independent Administrative Institution", a new form of governmental agency. Important related changes include closer attention to grassroots level cooperation, peace-building, cost performance, faster decision-making, and accountability. JICA continues to be one of the official agencies responsible for implementing ODA programs, in particular technical cooperation, on behalf of the Government of Japan. JICA's programs include Technical Cooperation Projects, Dispatch of Technical Cooperation Experts, Technical Training of Overseas Participants, Development Studies, Dispatch of Japanese Volunteers, Disaster Relief and Grant Aid, etc.

**United Nations Statistical Institute for Asia and the Pacific (SIAP) was established in Tokyo in 1970 by twenty countries in Asia and the Pacific and the United Nations Development Programme (UNDP). It has been an international center to bring about regional cooperation in training government statisticians from developing countries of the region. SIAP was accorded the legal status of a subsidiary body of the United Nations Economic and Social Commission for Asia and the Pacific (ESCAP) as of April 1, 1995. As the host country, the Government of Japan extends cooperation to the Institute through the Ministry of Internal Affairs and Communications (MIC) as the cooperation agency.

I. Concept

Background

In developing countries, especially in ESCAP member countries, there are urgent needs to enhance capabilities for analysis, interpretation and dissemination of statistical data collected through censuses, sample surveys and administrative data system.

In order to understand the state of achievement targeted by MDGs, the international community strongly requests training to develop and improve necessary skills for effective and efficient production and utilization of statistical data.

For what?

This program aims to improve the quality and availability of economic statistics.

For whom?

This program is offered to middle level statisticians/ government officials engaged in data collection, analysis and dissemination of information relating to economic statistics, including MDGs

How?

Participants shall master knowledge and skills in data analysis, interpretation and dissemination relating to economic statistics, including MDGs. Under the project base learning programme, they shall undertake, in forming small groups, a project work where they apply their learned skills to practical exercises. They shall also develop their action plans for further disseminating their gained knowledge and skills into their offices after their return.

II. Description

1. Title (J-No.): Analysis, Interpretation and Use of Official Statistics (Economic Statistics) (J1000733)

2. Period of program

Duration of whole program:	June 2010 to March 2011
Preliminary Phase: (in a participant's home country)	June 2010 to July 2010
Core Phase in Japan:	July 13 to September 18, 2010
Finalization Phase: (in a participant's home country)	September 2010 to March 2011

3. Target Regions or Countries

Afghanistan, Bhutan, China, Dominica, India, Iraq, Kosovo, Laos, Mozambique, Nepal, Palau, Philippines, Senegal, Swaziland, Syria, Tajikistan, Tonga, and Vietnam

4. Eligible / Target Organization

National Statistical Offices and other government agencies make up national statistical system

5. Total Number of Participants

23participants

6. Language to be used in this program: English

7. Program Objective:

Improved knowledge and developed skills on statistical analysis and interpretation, and on its effective dissemination will be shared among national statistical offices and other government agencies make up national statistical system in each country.

8. Overall Goal

Participating countries can take measures to improve reliability and increase availability of data and to provide evidence-based information with more plausible interpretation to their governments as well as to their people.

9. Expected Module Output and Contents:

This program consists of the following components. Details on each component are given below:

(1) Preliminary Phase in a participant's home country (June 2010 to July 2010) <i>Participating organizations make required preparation for the Program in the respective country.</i>	
Expected Module Output	Activities
Country report is formulated	Formulation and submission of Country report (Detailed information is provided in section III-5 and the ANNEX1.)
To gain basic knowledge on economic statistics including 2008 SNA and/or STATA through JICA/SIAP Distance training programme.	If the Distance Training Course is available at your country's JICA office, Participant(s) should attend the course with other colleagues. The availability should be informed in due course. Participants should attempt to study the basics on these topics and get acquainted with them.

(2) Core Phase in Japan (July 13, 2010 to September 18, 2010) <i>Participants dispatched by the organizations attend the Program implemented in Japan.</i>		
Expected Module Output	Subjects/Agendas	Methodology
To understand the theory and methods on statistical analysis and interpretation of statistical data more properly and be able to process statistical data.	Analytical framework of the economy, Compilation methods of macro-economic aggregates and price statistics, Analysis and interpretation of SNA aggregates and MDG indicators	Lecture Observation Exercise and Project works
To be able to analyze census and survey data, write report, present and disseminate results of the census and survey to wider audience.	Compilation of sectoral statistics from Economic Census & surveys, administrative sources and business records.	Lecture Observation Exercise and Project works

To be able to do a series of statistical work from analyzing and interpreting of statistical data to reporting and disseminating of the result.	Statistical theory and software for data analysis	Lectures Observations Exercise and Project works
To be able to train other statistical officers utilizing improved communication skills.	Training technique, Presentation software, and presentation of the results of their project work and other activities	Lectures Exercise and project works
To carry out project work using measures to deal with problems on their work, and To develop action plan for the knowledge sharing with their colleagues.	Project work, Action plan development	Lectures Exercises and project works

(3)Finalization Phase in a participant's home country

(September 2010 to March 2011)

Participating organizations produce final outputs by making use of results brought back by participants. This phase marks the end of the Program.

Expected Module Output	Activities
To implement an action plan	Application and implementation of the action plan back in the participant's country. Each Participant is expected to prepare and submit a progress report certified by the head of her/his organization to SIAP about the implementation of Action Plan within 6 months after her/his return. Workshop or other program for supporting participants to implement their action plan should be considered by the management for improvement of quality and availability of economic statistics.

<Structure of the program>

1. Preliminary phase (activities in your home country):

- 1) Preparation of the country report.
- 2) Preparatory study through Distant Training Programme

2. Core Phase (activities in Japan):

Faculty members and invited guest lecturers will present and discuss various topics on economic statistics including SNA framework citing examples on the empirical research, data analysis techniques and proper interpretation of results for decision making, reporting and presentation techniques, use of software and database management and training techniques. Each participant will give two presentations: the first at the beginning of the course introducing the proposed topic, objectives and proposed methodology for his/her project work and action plan, and the second, towards the end of the course, on the findings of his/her project work and on proposed action plan. The participants are expected to know basic statistical computing software especially spreadsheet applications. Knowledge on the use of software packages such as Microsoft Office, PHStat, STATA and Devinfo will be useful.

Lectures and Exercises

1. Economic Statistics (according to and consistent with 2008 SNA framework)

1-1 Analytical Framework

1-2 Compilation of SNA aggregates & sequence of accounts

1-2-1 Theoretical Framework

1-2-2 Compilation of macro-economic aggregates

1-2-3 Compilation of SNA aggregates at constant prices: production-, expenditure- and income-side aggregates

1-2-4 Supply and Use Tables and Input-Output Table (including balancing techniques)

1-2-5 Quarterly Accounts: main issues and data sources

1-2-6 Environment Accounts: An introduction

1-2-7 Regional Accounts: Main features

1-3 Government Financial Statistics

1-4 Rest-of-the-world sector

1-5 Monetary and Financial Statistics

1-6 Price Statistics

1-6-1 Recommended Framework

1-6-2 Conceptual approach to construction & compilation of Consumer Price Index (CPI)

1-6-3 Producers Price Index (PPI) – basic concepts and compilation methods

1-6-4 Exports and Imports Price Indices & Unit Value Index – concepts and

compilation methods

1-6-5 International Comparison Programme (ICP) and Purchasing Power Parity (PPP)

1-7 MDG Indicators (Goals 1 & 8)

2. Sectoral Statistics

2-1 Strategies of data collection

2-2 Business registers

2-3 Analysis of business accounts (linking to national accounts)

2-4 Economic Census and area-frame based surveys

2-5 Recommendations of International Recommendations on Industrial Statistics (IRIS) & International Recommendations on Distributive Trade Statistics (IRDTS) Manuals

3. Statistical Data Analysis

3-1 Descriptive Statistics

3-2 Inferential Statistics

3-3 Simple Linear Regression & Correlation

3-4 Introduction to Multivariate Techniques

3-5 Multiple Regression Analysis

3-6 Time Series Analysis

3-3 Introduction to STATA software

4. Training and Communication Techniques

4-1 Training Techniques

4-2 Presentation Skills

4-3 Report Writing

4-4 Country report presentation

5. Project Work and Action Plan

5-1. Project work

With a view to applying techniques of statistical analysis, interpretation and dissemination relating to economic statistics, each participant will work on an individual project featuring research on analysis and interpretation of appropriate primary and secondary data on a topic related to socio economic issues of the respective country. Participant should bring relevant data, preferably primary data for analysis and reference materials including secondary data and publications that will be needed for project work.

Each participant will be assigned to a SIAP faculty member for guidance and assistance in the preparation of the individual project work. Participants may also seek guidance from other faculty members and training staff in their areas of expertise.

5.2 Development of Action Plan

Each participant will prepare an action plan which describes what activities he/she will undertake to apply the knowledge and techniques acquired from the course to improve the production and use of economic statistics in their countries. The plan will be presented for discussion at a seminar.

6. Field Study Trip and Group Visit

Study visits to Japanese government offices, financial institutions and leading industries

III. Conditions and Procedures for Application

1. Expectations for the Participating Organizations:

- (1) This program is designed primarily for organizations that intend to address specific issues or problems identified in their operation. Participating organizations are expected to use the project for those specific purposes.
- (2) This program is enriched with contents and facilitation schemes specially developed in collaboration with relevant prominent organizations in Japan. These special features enable the project to meet specific requirements of applying organizations and effectively facilitate them toward solutions for the issues and problems.
- (3) As this program is designed to facilitate organizations to come up with concrete solutions for their issues, participating organizations are expected to make due preparation before dispatching their participants to Japan by carrying out the activities of the Preliminary Phase described in section II -9 .
- (4) Participating organizations are also expected to make the best use of the results achieved by their participants in Japan by carrying out the activities of the Finalization Phase described in section II -9.

2. Nominee Qualifications:

Applying Organizations are expected to select nominees who meet the following qualifications.

(1) Essential Qualifications

- 1) Current Duties: be middle level statisticians
- 2) Experience in the relevant field: have sufficient knowledge of economic statistics and basic methods for statistical analysis as well as the use of personal computers for data analysis, word processing, tabulation and presentation visuals
- 3) Educational Background: be university graduate with specialization in either statistics, mathematics, economics, sociology
- 4) Age: be over 30 years and not more than 45 years of age at the beginning of the training course
- 5) Language: have a working knowledge of spoken and written English.
- 6) Health: must be in good health, both physically and mentally, to participate in the Program in Japan.

✖ There is higher risk for pregnant women and people with chronic diseases to cause serious medical consequences when infected with the new Influenza A (H1N1) virus according to the past cases. Under the pandemic situations of the new Influenza, pregnant applicants shall not be accepted for the time being.

And applicants who suffer from chronic diseases, such as respiratory illness, cardiac disease, metabolic disease (diabetes, etc), renal

dysfunction and immune insufficiency (systemic steroid administration, etc), shall not be accepted in principle. However, for those applicants with the chronic diseases, if they and their organizations express strong interest in participating in training programs, JICA shall accept them as an exceptional case after receiving a letter of consent from themselves and their organizations. Please ask national staffs in JICA office for the details.

7) Must not be serving any form of military service.

(2) Recommendable Qualifications

Expectations for the Participants: not have participated in other Training and Dialogue Programs of JICA in principle

3. Required Documents for Application

(1) Application Form: The Application Form is available at the respective country's JICA office or the Embassy of Japan.

(2) Nominee's English Score Sheet: to be submitted with the application form. If you have any official documentation of English ability (e.g., TOEFL, TOEIC, IELTS), please attach it (or a copy) to the application form.

(3) Questionnaire: to be submitted with the application form. Each applicant should fill in the attached questionnaire (ANNEX 2) which is to be used for the screening of applicants. After filling out the form, detach it and submit it together with the Application Form. Applications not accompanied by a completed questionnaire cannot be considered for selection.

4. Procedure for Application and Selection :

(1) Submitting the Application Documents:

Closing date for application to the JICA TOKYO in JAPAN: April 30, 2010

Note: Please confirm the closing date set by the respective country's JICA office (or Japanese Embassy) to meet the final date in Japan.

(2) Selection:

After receiving the document(s) through due administrative procedures in the respective government, the respective country's JICA office (or Japanese Embassy) shall conduct screenings, and send the documents to the JICA TOKYO in charge in Japan, which organizes this project. Selection shall be made by the JICA TOKYO in consultation with the organizations concerned in Japan based on submitted documents according to qualifications.

The organization with intention to utilize the opportunity of this program will be highly valued in the selection

(3) Notice of Acceptance

Notification of results shall be made by the respective country's JICA office (or Japanese Embassy) to the respective Government by **not later than May, 28 2010**.

5. Document(s) to be submitted by accepted participants:

Country Report -- to be submitted by the participant's arrival in Japan:

Before coming to Japan, only accepted participants are required to prepare a country report (detailed information is provided in the ANNEX1 "Recommended Format of Country Report").

Country Report should be submitted to the person in charge of JICA TOKYO on the participant's arrival in Japan, also preferably submitted to the respective country's **JICA office** and sent by e-mail to **JICA TOKYO (tictif@jica.go.jp)** attention of Mr. Uno before the participant's arrival.

The report will be printed and distributed to all participants and concerned staff members of SIAP and JICA. Each participant is expected to make a presentation of the report during the course. Please bring an electronic copy with you.

6. Conditions for Attendance:

- (1)** to observe the schedule of the program,
- (2)** not to change the program subjects or extend the period of stay in Japan,

IV. Administrative Arrangements

1. Organizers:

(1) JICA TOKYO

1) Contact: Mr. UNO Keizo (tictif@jica.go.jp)

(2) United Nations Statistical Institute for Asia and the Pacific (SIAP)

1) Contact: Ms Davaasuren Chultemjamts, Director (staff@unsiap.or.jp)

2) URL: <http://www.unsiap.or.jp/index.html>

3) Remark: SIAP is a professional institution for government statisticians of developing countries, mainly from ESCAP member and associate member countries. It has trained well more than 10,000 government officials of over 120 countries from all over the world since its creation. It provides practical as well as theoretical exercises covering all sphere of official statistics from statistical software to MDG indicators. Project work, a project based learning programme, is an effective tool used for participants to master the application of knowledge and skills they learned from the training. SIAP conducts statistical training services not only in Japan but also in developing countries in the ESCAP region by dispatching lecturers. SIAP has a spacious, well equipped and modern premise in Makuhari area of Chiba city, which is a cutting-edge technology driven industrial zone located just next to Tokyo.

2. Travel to Japan:

(1) **Air Ticket:** The cost of a round-trip ticket between an international airport designated by JICA and Japan will be borne by JICA.

(2) **Travel Insurance:** Term of Insurance: From arrival to departure in Japan. The traveling time outside Japan shall not be covered.

3. Accommodation in Japan:

JICA will arrange the following accommodations for the participants in Japan:

JICA Tokyo International Center (JICA TOKYO)

Address: 2-49-5 Nishihara, Shibuya-ku, Tokyo 151-0066, Japan

Recommended Format of Country Report

1. NAME OF PARTICIPANT

2. NAME OF COUNTRY

3. MAIN CONTENTS

- (i). Provide key information about your country (main indicators covering demographic, social and economic characteristics, cultural highlights);
- (ii). Highlight main features of your country's statistical system (structure:- whether centralized / decentralized / combination; main institutions responsible for economic, social, poverty, environmental statistics, MDGs; statistics act/legislation);
- (iii). Discuss the mission/vision and organization chart of your office, including information on the human resource such as the number of staff and available training services, with a focus on the unit within the office that you work in and your own job and responsibilities in that unit; and
- (iv). Describe the status of Economic Statistics in your country with special reference to implementation of 1993 SNA, compilation of different price indices, and census & surveys conducted and administrative & business records used for compilation of economic statistics. Also spell out the long-term or strategic plan that your agency is employing to develop and improve economic statistics, including improving technical skills of the staff. How does your (participant's) job contribute to the implementation of the long-term plan of your agency or National Statistical Development Strategies (NSDS). What are the difficulties you face in performing your job?
- (v). Describe the topic which you would like to propose for your project work, the research questions you would like to find answers through the project work, and the relevance to the work of the statistical office and/or social issues in your country. Also describe the data and/or data sets you will base your analysis on.

Note 1: The participant should prepare a country report based on the headings stated above.

Note 2: The report should be printed in double space on A4 size paper, and submitted to JICA for processing on the participant's arrival in Japan.
Also bring an electronic copy with you.

Note 3: Do not provide answers directly on this Annex sheet, this is a format for you to prepare your report.

Note 4: For preparation of report presentation and practice of statistical software in each individual room, it is recommendable that you may bring your own personal computer because there is only a limited number of PC available in JICA TOKYO.

JICA and Capacity Development

The key concept underpinning JICA operations since its establishment in 1974 has been the conviction that “capacity development” is central to the socioeconomic development of any country, regardless of the specific operational scheme one may be undertaking, i.e. expert assignments, development projects, development study projects, training programs, JOCV programs, etc.

Within this wide range of programs, Training Programs have long occupied an important place in JICA operations. Conducted in Japan, they provide partner countries with opportunities to acquire practical knowledge accumulated in Japanese society. Participants dispatched by partner countries might find useful knowledge and re-create their own knowledge for enhancement of their own capacity or that of the organization and society to which they belong.

About 460 pre-organized programs cover a wide range of professional fields, ranging from education, health, infrastructure, energy, trade and finance, to agriculture, rural development, gender mainstreaming, and environmental protection. A variety of programs and are being customized to address the specific needs of different target organizations, such as policy-making organizations, service provision organizations, as well as research and academic institutions. Some programs are organized to target a certain group of countries with similar developmental challenges.

Japanese Development Experience

Japan was the first non-Western country to successfully modernize its society and industrialize its economy. At the core of this process, which started more than 140 years ago, was the “*adopt and adapt*” concept by which a wide range of appropriate skills and knowledge have been imported from developed countries; these skills and knowledge have been adapted and/or improved using local skills, knowledge and initiatives. They finally became internalized in Japanese society to suit its local needs and conditions.

From engineering technology to production management methods, most of the know-how that has enabled Japan to become what it is today has emanated from this “*adoption and adaptation*” process, which, of course, has been accompanied by countless failures and errors behind the success stories. We presume that such experiences, both successful and unsuccessful, will be useful to our partners who are trying to address the challenges currently faced by developing countries.

However, it is rather challenging to share with our partners this whole body of Japan’s developmental experience. This difficulty has to do, in part, with the challenge of explaining a body of “tacit knowledge,” a type of knowledge that cannot fully be expressed in words or numbers. Adding to this difficulty are the social and cultural systems of Japan that vastly differ from those of other Western industrialized countries, and hence still remain unfamiliar to many partner countries. Simply stated, coming to Japan might be one way of overcoming such a cultural gap.

JICA, therefore, would like to invite as many leaders of partner countries as possible to come and visit us, to mingle with the Japanese people, and witness the advantages as well as the disadvantages of Japanese systems, so that integration of their findings might help them reach their developmental objectives.
